

New Product Focus:
Magellan 3450VSi &
Magellan 3550HSi

June 2017

Magellan Single Plane Positioning

Magellan 3450VSi - Easy, Reliable Performance

Key Benefits

- Class leading 1D, 2D, and Cell phone reading performance
- More user friendly illumination with newly developed object sense mode
- Another Datalogic First – the first Vertical Single Plane product to support Digimarc decoding
- Large scan volume and DoF comparable to laser technology
- Flexible USB Auxiliary port
- Discreet cable management

Magellan 3550HSi – Clutter Free Performance

“Out of clutter, find simplicity...” – Albert Einstein

Key Benefits

- Leading 1D, 2D & Cell Phone performance
- The first Horizontal Single Plane product to support Digimarc decoding
- Exclusive Deep Red intelligent illumination that's EASY on the EYES
- Premium all Stainless Steel and Sapphire glass design removes clutter at the POS and looks excellent
- Superior “slide-scanning” ergonomics to minimize item handling and lifting
- No Direct Competitors

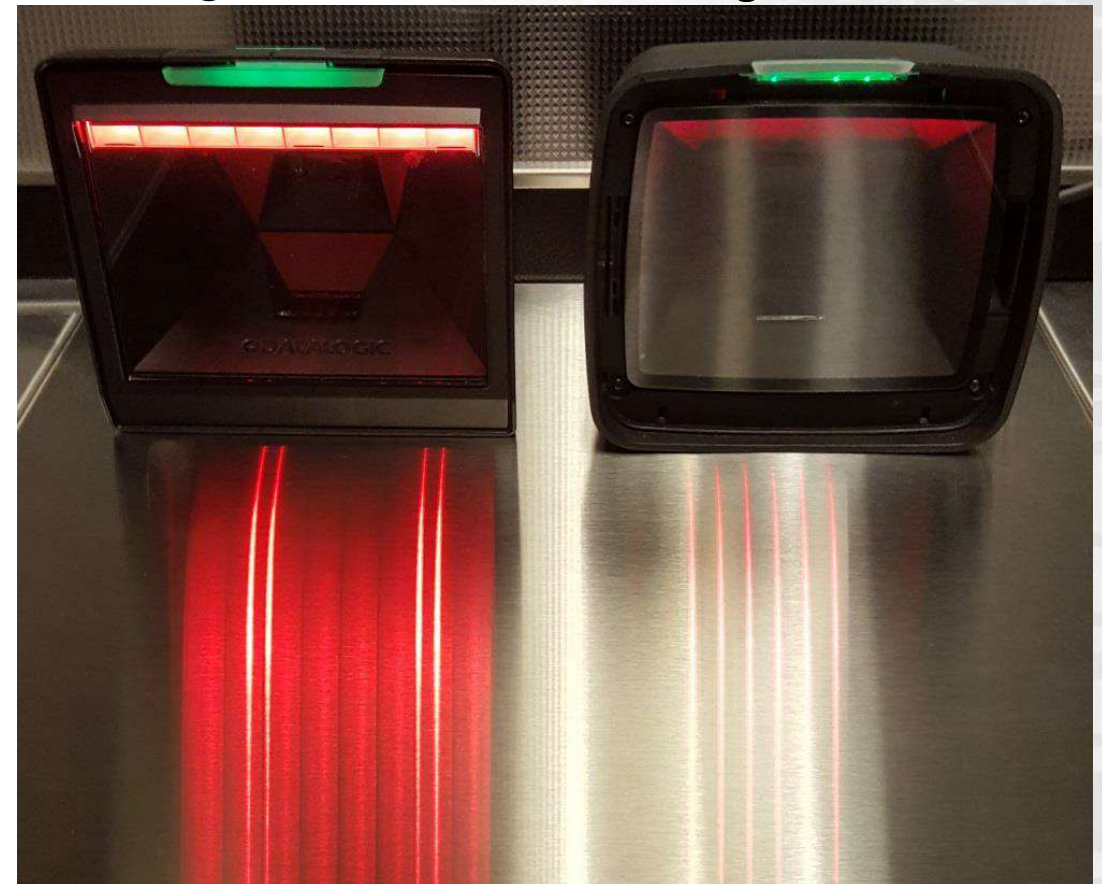

DIGIMARC
READY | 

More Intelligent Illumination...

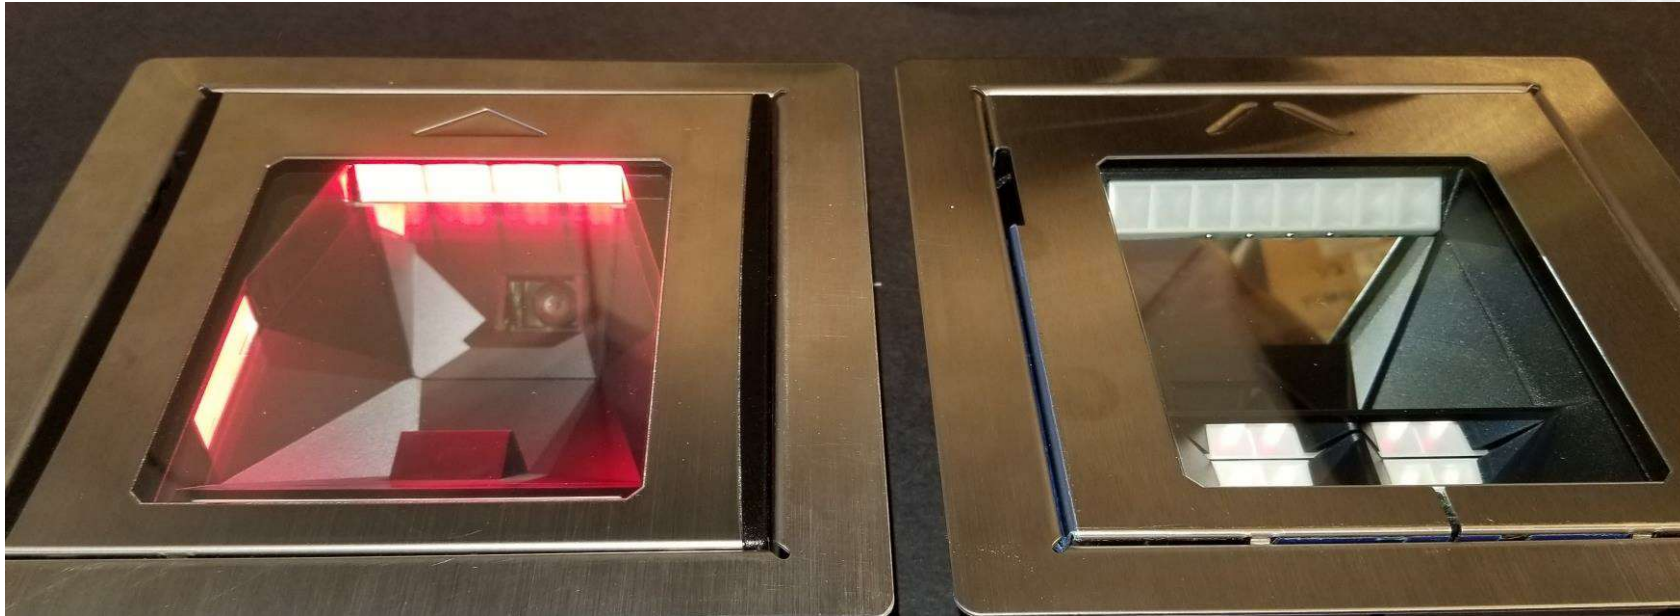

- Reduced, comfortable lighting
 - Direct and reflected
 - Seated or standing
- Improved ambient light immunity
- Large good read indicator

Mag 3200VSi

Mag 3450VSi

Easier on the Eyes...from Any Angle

Mag 3300HSi

Mag 3550HSi

Other Benefits

- Uses same counter cutouts and mounts as Magellan 2300HS & Magellan 3300HSi
- Compatible with platters from Magellan 2300HS and Magellan 3300HSi
- Loud programmable speaker tones like Magellan 9800i and Magellan 9400i

Customer Service Scanning Option

- Very easy reading of mobile coupons, loyalty cards, gift cards, etc.
- Conveniently located reader faces the customer at a comfortable read height
- Independent ON and GOOD READ indicator
- Can be used concurrently with scanner to maximize throughput
- Improves the shopping experience for the customer
- Barcode symbologies read by the Customer Facing Reader can be configured independently from the base scanner
- For a SCO application, cell phone reading can also be enabled in the base scanner
- CSS Option can be placed downstream in Checkout
